III. CURRENT FARM AND RANCH OPERATION

A. Farm or Ranch Size in Acres

	Owned	Rented	Total
Total Tillable Acres			
-Non-Irrigated	_____	_____	_____
-Irrigated	_____	_____	_____
Pasture/Grass Acres	_____	_____	_____
CRP/Other Acres	_____	_____	_____
TOTAL ACRES	_____	_____	_____

B. Crop Production (Acres)

	Non-Irrigated	Irrigated
1. Wheat	_____	_____
2. Grain Sorghums	_____	_____
3. Corn	_____	_____
4. Soybeans	_____	_____
5. Silage	_____	_____
6. Alfalfa	_____	_____
7. Grass Hay	_____	_____
8. Fallow	_____	_____
9. Other _____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

C. Livestock Production

1. Beef Production

- Head of Beef Cows _____
- Head of Calves/Stockers/Feeders _____
- Head of Finished Feeders _____
- Head of Contract Cattle _____
- Other _____

2. Dairy Production

- Head of Dairy Cows _____
- Head of Feeder Steers _____
- Head of Bred Heifers _____
- Other _____

3. Swine Production

- Head of Sows _____
- Head of Feeder Pigs Sold _____
- Head of Finished Pigs Sold _____
- Head of Contract Pigs _____
- Other _____

4. Sheep Production

- Head of Ewes _____
- Head of Feeder Lambs Sold _____
- Head of Market Lambs Sold _____
- Other _____

5. Other Livestock/Poultry Production

D. Value-Added/Contract Production

(List or describe)

V. INNOVATIVE PRODUCTION MANAGEMENT PRACTICES

For each of the following areas of production management that applies to your farm and ranch, briefly describe any special management systems, practices, innovative machinery or facilities that have resulted in improved productivity and/or efficiency.

- A. Soil and Water Management Practices (conservation planning, terraces, waterways, windbreaks, tillage practices, buffer strips, etc.)

- B. Improved Water Quality (nutrient and chemical management, animal waste management, buffer strips, environmental friendly survey, etc.)

- C. Improved Genetics (selection techniques, certified seed, pest management, livestock EPDs - AI, etc.)
